

Claim

If a manuscript 'stalls' (for instance due to inactivity on the part of the reviewing author), another user associated with the manuscript may make a 'Claim Request' to take over reviewing author duties.

How your 'Claim Request' is processed

If you are already listed as a Secondary Author or PI for the manuscript, the currently-assigned reviewing author will be notified of your Claim Request by email. They have 7 days in which to either take action to move the manuscript out of its stalled state, or to contact the Europe PMC Helpdesk in respect of your Claim Request. If they do not take either of these actions within a week, then you will automatically be granted 'Reviewing Author' status for the manuscript.

If you are currently a 'Watcher', your Claim Request will be passed to the Europe PMC Helpdesk, who will assess your application.
